SUMMARY

Associate Software Engineer with 1+ year of experience in full-stack development., Skilled in Java, Python, Spring Boot, ReactJS, AWS, with experience in backend development for an email campaign, lead for AI Video Annotation and a cloud gaming project.

WORK EXPERIENCE

Highbrow Technology Inc.

February 2024 - Present

Associate Software Engineer

- Developed a backend for an Email Campaign system using Spring Boot, ensuring efficient email scheduling and delivery.
- Utilized ReactJS and Java Springboot as a full-stack developer, optimizing application design and reducing development time by 25%.
- Managed AWS deployment, ensuring scalable cloud infrastructure for high-availability applications and enhancing performance monitoring.
- Integrated Docker for containerization, optimizing application deployment and management across different environments.
- Lead the AI Video Annotation Project, overseeing cross-functional teams, meeting project deadlines, and ensuring high-quality deliverables through continuous project management.
- Currently working on a Cloud Gaming Project, focusing on backend optimization and cloud resource management.

EDUCATION

Pondicherry University

July 2019 - May 2024

M.Sc. Integrated 5 Year Computer Science - 8.62

Specializing in Programming, Data Structures, Algorithms, Database Systems, Computer Networks.

PROJECT

Expense Tracker - Java Spring Boot, MySQL [🔗](#)

A full-stack expense tracker application with **Spring Boot (MySQL)** backend and **React frontend**, enabling users to manage daily and monthly expenses with Firebase authentication and a responsive UI.

Tic-tac-toe Game - Java [🔗](#)

"Developed a Tic-tac-toe game using Java.

Staff Timetable Optimization - PHP, HTML, CSS, JS, MySQL. [🔗](#)

This project automates staff allocation, resolves conflicts, ensuring a digitalized and efficient scheduling process unique to the department's needs with a manual override feature for Pondicherry University, Department of Computer Science.

Attendance Tracker - Flutter [🔗](#)

Developed an Attendance Tracker application using Flutter to streamline attendance management for college classes. The app allows faculty to mark attendance digitally, view attendance records, and generate reports.

Radio Streaming App - Flutter [🔗](#)

Developed a Radio Streaming App using Flutter, providing users with seamless access to online radio stations. The app features a clean and intuitive interface, station browsing, playback controls.

Brick Breaker Game - Simple Brick Breaker Game - HTML, CSS, JS [🔗](#)

Developed a Brick Breaker game using HTML, CSS, and JavaScript, featuring interactive gameplay, smooth controls, and a responsive design.

SKILLS	
Hard Skills: - Programming Languages: Java, Python, C, C++ - Mobile App Development: Flutter - Cloud Infrastructure: AWS, Docker, Virtualization - Web Development & APIs: REST API, HTML, CSS, JavaScript, PHP, Bootstrap - Application Monitoring & Performance: Java Spring Boot, ReactJS, Microservices, Git	Soft Skills: - Project Management: Leadership, Agile Methodology - Team Collaboration: Cross-functional teamwork, Communication - Problem-Solving: Critical thinking, Decision-making - Time Management: Task prioritization, Meeting deadlines
CERTIFICATE	
Java Course - Mastering the Fundamentals on Scaler Topics 	
Covered core Java concepts, object-oriented programming, and best practices.	
Programming for Everybody (Getting Started with Python) 	
Introduced Python basics, including syntax, loops, and functions.	
C for Everyone: Programming Fundamentals 	
Explored foundational C programming concepts, including variables, loops, and pointers.	
Flutter Bootcamp 	
Learned Flutter framework for building cross-platform mobile applications.	
Javascript For Beginners Complete Course 	
Covered JavaScript fundamentals, DOM manipulation, and basic programming logic.	
Getting Started with Git and GitHub 	
Learned version control, repository management, and collaboration using Git and GitHub.	
Introduction to Web Development with HTML, CSS, JavaScript 	
Covered front-end web development basics, including page structure, styling, and interactivity.	
IoT and its Application 	
Explored Internet of Things (IoT) concepts, including sensors, connectivity, and real-world applications.	
Introduction to Microsoft Excel 	
Covered Excel basics, including formulas and functions.	
Mobile Debugging and Troubleshooting 	
Learned techniques for identifying and resolving mobile hardware issues.	
LANGUAGE	
English Advanced	
Tamil Advanced	
AWARD	
Merit Scholarship Pondicherry University	
- Secured First Rank in two consecutive semesters, earning a scholarship of Rs. 10,000 each semester. - Awarded additional scholarships of Rs. 7,500 and Rs. 5,000 in subsequent semesters for academic excellence.
